Type: Request for Bid  
Issue Date: 6/14/2024  
Deadline: 7/24/2024 02:00 PM (ET)  
Notes: Lee County Port Authority ("Authority"), a political subdivision and special district of the state of Florida, invites all interested and qualified potential bidders to submit bids pursuant to the referenced solicitation.

The Airside Improvement Paving Package for RSW Terminal Expansion Phase II project consists of full-strength Taxiway and Taxilane construction with asphalt (Base Bid) or concrete (Bid Alt 1) paving. The apron hardstands will consist of full-strength concrete construction and paving. Other site improvements include fine grading, airfield electrical, pavement markings, and airfield MOT.

Responses must be in IonWave, powered by EUNA Technology, prior to the deadline for submission. Bidders are responsible for taking all necessary steps to ensure that their proposal is uploaded before the due date and time. The Authority is not responsible for technology and/or any other issues that cause the proposal deadline to be missed.

All questions and/or requests for clarifications for this project are to be submitted through IonWave.

In addition, there is a **NO LOBBYING POLICY** in place. No communication regarding this project is to take place with anyone other than the Procurement Agent identified under Bid Contact Information.

Any communications, verbal and/or written, about the RFB between a potential bidder and any LCPA department, agent, official, or representative **is not allowed**. - b) Listing of all manufactured products that are not comprised of 100 percent U.S. domestic content (excludes products listed on the FAA Nationwide Buy American Waivers Issued listing and products excluded by Federal Acquisition Regulation Subpart 25.108; products of unknown origin must be considered as non-domestic products in their entirety).

**FORM 11: TRADE RESTRICTION CERTIFICATION**

By submission of a bid, the Bidder certifies that with respect to this solicitation and any resultant contract, the Bidder:

- 1) Is not owned or controlled by one or more citizens of a foreign country included in the list of countries that discriminate against U.S. firms as published by the Office of the United States Trade Representative (USTR);
- 2) Has not knowingly entered into any contract or subcontract for this project with a person that is a citizen or national of a foreign country included on the list of countries that discriminate against U.S. firms as published by the USTR; and
- 3) Has not entered into any subcontract for any product to be used on the Federal project that is produced in a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR.

This certification concerns a matter within the jurisdiction of an agency of the United States of America and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18 USC § 1001.

The Bidder/Contractor must provide immediate written notice to the Owner if the Bidder/Contractor learns that its certification or that of a subcontractor was erroneous when submitted or has become erroneous by reason of changed circumstances. The Contractor must require subcontractors provide immediate written notice to the Contractor if at any time it learns that its certification was erroneous by reason of changed circumstances.

Unless the restrictions of this clause are waived by the Secretary of Transportation in accordance with 49 CFR § 30.17, no contract shall be awarded to an Offeror or subcontractor:

- 1) Who is owned or controlled by one or more citizens or nationals of a foreign country included on the list of countries that discriminate against U.S. firms published by the USTR; or
- 2) Whose subcontractors are owned or controlled by one or more citizens or nationals of a foreign country on such USTR list; or
- 3) Who incorporates in the public works project any product of a foreign country on such USTR list.

Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by this provision. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

The Bidder agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification without modification in all lower tier subcontracts. The Contractor may rely on the certification of a prospective subcontractor that it is not a firm from a foreign country included on the list of countries that discriminate against U.S. firms as published by USTR, unless the Offeror has knowledge that the certification is erroneous.

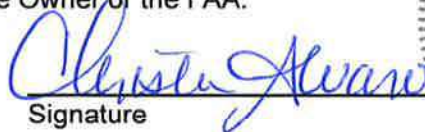

This certification is a material representation of fact upon which reliance was placed when making an award. If it is later determined that the Contractor or subcontractor knowingly rendered an erroneous certification, the Federal Aviation Administration (FAA) may direct through the Owner cancellation of the contract or subcontract for default at no cost to the Owner or the FAA.

The Bidder must complete the following two (2) certification statements. The Bidder must indicate its current status as it relates to tax delinquency and felony conviction by inserting a checkmark (✓) or the letter "X" in the space following the applicable response. The Bidder agrees that, if awarded a contract resulting from this solicitation, it will incorporate this provision for certification in all lower tier subcontracts.

**Certifications**

- 1) The Bidder represents that it ☐ is or ☒ is not a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability.

**Lower Tier Contract Certification****CERTIFICATION OF LOWER TIER CONTRACTORS REGARDING DEBARMENT**

The Contractor, by administering each lower tier subcontract that exceeds \$25,000 as a "covered transaction", must verify each lower tier participant of a "covered transaction" under the project is not presently debarred or otherwise disqualified from participation in this federally assisted project. The Contractor will accomplish this by:
