Sourcewell, a State of Minnesota local government unit and service cooperative, requested proposals for Innovative Product Solutions to result in a contracting solution for use by its Participating Entities.

This procurement method is in the best interest of LCPA because of the following advantages:

The Authority will be able to enjoy competitive pricing solicited by Sourcewell, a governmental agency organized for the purpose of assisting public agencies in meeting needs more efficiently. Utilization of this agreement allows the Authority to leverage the benefits of obtaining excellent pricing. Purchasing cooperatives have several advantages, including, but not limited to:

- Aggregate buying power of public agencies
- A more expedited and streamlined process for Procurement and operating staff versus issuing an independent solicitation.
- Cost savings - save administrative costs from not having to conduct our own solicitation.
